Dear Paul,

We wanted to take the time to extend our appreciation for your professionalism in the completion of our renovation project. After working with numerous building teams and contractors on both our current home and previous renovation projects, we found PTF Constructions to be extremely organized, informative and realistic with timeframes and goal setting.

On a personal level, we've found you and your team to be particularly 'easy going', personable, honest and approachable. You were prompt and reliable in answering our questions and keeping us well informed of progress.

It was very important to us that the standard and quality of your work be very high. We are grateful to see that you met and in some cases exceeded our expectations.

We wish you and your company all the best for your new ventures in Hervey Bay. We would be more than happy to provide further reference to prospective clients.

Kind Regards,

A handwritten signature in blue ink, appearing to read 'D. Irwin' followed by a flourish and 'L. Irwin'.

Darryl and Lisa Irwin
